What am I supporting?

Now in its eighth year, the Unified Sports® Program is a diversity and inclusion initiative presented by Special Olympics in the Clark County School District.

The **Unified Sports® Program** offers training and competition in **bowling, soccer, basketball and track and field** to elementary and secondary school students throughout the School District area. All schools are eligible to participate and during the 2009-10 academic year alone over **2400 students** benefited.

What is so special about Unified Sports®?

The program subsidizes training and competition for developmentally disabled students **AND** their peers.

Special Olympics athletes **train side-by-side** with their peers and together **they are a team**. Athletes develop their physical skills and a better understanding of the world around them -- **thanks to you**, we are building a better community by encouraging tolerance, diversity and team work.
