This event will specifically benefit Special Olympics of Nevada's Unified Sports Program. It provides training and competition to athletes in the Clark County School District. This program trains developmentally disabled students **and** their peers. Special Olympics athletes train next to their peers, and together they are a team.

This is the second annual “Bowl for the Gold” event. You can find more information about Special Olympics of Nevada on its website: [www.sonv.org](http://www.sonv.org).
